

SWAMP Bioaccumulation Oversight Group (BOG) Meeting

Friday, August 19, 2011

1:00 – 3:00 PM

Teleconference

Call-in toll-free number: 866-916-5407

Attendee access code: 846 462 1

Room 1520 reserved at CalEPA for a group phone

AGENDA

1.	Roll Call, Agenda Review, General Updates	1:00 Jay Davis
2.	BOG Strategy Development: Preliminary Discussion Review of past agreements on key components of a strategy, discussion of elements needed and steps in developing a strategy. The Wetland Workgroup strategy document will be used as a model (link provided below). Desired Outcomes: Agreement on elements needed and plan for developing a strategy. Decision on whether the aquatic life beneficial use should be included in the program.	1:10 Jay Davis
3.	Potential Bioaccumulation Elements for 2011/2012 At the last meeting, there was consensus that development of a strategy to guide the BOG in its role as a workgroup of the CWQMC should be a task for 2011/2012. The group requested further scoping of proposals for other potential monitoring tasks. Continued Portal development is another potential task to consider. <ol style="list-style-type: none"> 1. Potential monitoring elements <ol style="list-style-type: none"> a. Revisit sampled lakes that were inadequately characterized b. Probability sampling with USEPA c. Sample multiple species at representative lakes to obtain translators d. Establish time series for sport fish at selected lakes e. FWS BAF Study 2. Other elements <ol style="list-style-type: none"> a. Continued Portal development Desired Outcome: Agreement on elements needed and plan for	2:00 Jay Davis
4.	Wrap-up, plans for next meeting	2:55 Jay Davis
