

One Location per Lake: Cost Menu

Item	Cost			Notes
Sport fish sampling	\$6,000	1	\$6,000	others)
Prey fish and insect sampling	\$500	1	\$500	2 prey fish species and 1 insect
Tissue sample compositing and archiving	\$720	1	\$720	2 non-bass sport species, 3 prey species, 1 insect species, \$120 per sample
Mercury in individual bass	\$825	1	\$825	11 fish per lake, \$75 per analysis
Mercury in composite samples	\$150	1	\$150	2 composites per lake
PCBs in composite sample	\$636	1	\$636	1 sport composite per lake
Water Sampling	\$290		\$0	including ancillary field measurements
Sediment Sampling: Middle of Lake	\$300	1	\$300	if <100m
Total MeHg in water	\$175		\$0	3 samples, \$175 per sample
Dissolved MeHg in water	\$210		\$0	3 samples, \$210 per sample
Total THg in water	\$133		\$0	3 samples, \$133 per sample
Dissolved THg in water	\$168		\$0	3 samples, \$168 per sample
MeHg in sediment	\$525		\$0	3 samples, \$175 per sample
THg in sediment	\$384	1	\$384	3 samples, \$128 per sample
Hg in prey fish	\$225	1	\$225	3 composites
MeHg in inverts	\$163		\$0	1 insect composite
Nutrients in water	\$2,385		\$0	3 samples, \$795 per sample
Sediment grain size, TOC	\$495		\$0	3 samples, \$165 per sample
Total	\$14,284		\$9,740
