DRAFT AGENDA

ANNUAL REVIEW PANEL MEETING		
1.	Roll Call, Agenda Review, Goals of the Meeting	9:00
2.	Information: General Update SWAMP and BOG developments since the last Review Panel meeting, and future plans.	9:10
3.	Discussion: Draft Report on the Clean Lakes Study (Attachment: Draft report to be distributed on April 10) The draft report has been completed. A summary of the report will be presented, followed by a discussion of comments on the report. Written comments on the report are requested by May 4. Desired Outcome: Obtain input on the study from the Review Panel and stakeholders via a group discussion. Input will guide preparation of the final report.	9:30
4.	Discussion: Draft Data Report on the 2015 Sampling (Attachment: Draft report to be distributed on April 10) A summary of the draft data report will be presented. Written comments on the report are requested by May 4. Desired Outcome: Obtain input on the study from the Review Panel and stakeholders via a group discussion. Input will guide preparation of the final report.	11:00
LUNCH		11:30
4.	(Item 4 continued)	12:15
5.	Discussion: Update on the 2016 Sampling (Attachment: Cruise Report from 2016) A progress report on the 2016 sampling will be provided, including the plan and timeline for reporting the data and posting it to CEDEN and the Safe to Eat Portal. Desired Outcome: Obtain input on the plan and timeline.	12:30
6.	Discussion: Sampling Plan for 2017 - Round 2 of the Long-term Bass Lake Monitoring Program Refinements and details of conducting the second round of long-term bass lake monitoring will be presented and discussed. The original sampling plan is	1:00

	available here . Desired Outcome: Finalized plans for sampling in 2017.	
7.	Discussion: Sampling Plan for 2018 - The Southern California Bight Revisited A return to sampling of the Southern California Bight is planned for 2018 to coordinate with Bight '18. The design will generally be a repeat of the sampling conducted in the Bight in 2009. The sampling plan for the original effort is available here . Details of the design that need to be resolved will be presented and discussed. Desired Outcome: Obtain input on the plan from the Review Panel and stakeholders via a group discussion.	1:45
	Break	2:30
8.	Discussion: Revised Safe to Eat Portal The latest version of the Portal will be presented. This version can be accessed via this link . Username "bog", password "bogtester" Desired Outcome: Obtain input on the Portal from the Review Panel and stakeholders via a group discussion.	2:45
9.	Discussion: Bioaccumulation Summary for the Water Quality Status Report (Attachment: Draft writeup to be distributed on April 10) In 2017 SWAMP will begin producing an annual water quality status report for the state. The report will be released concurrent with the SWAMP Symposium next summer. A draft section on bioaccumulation will be presented and discussed. Desired Outcome: Obtain input on the summary from the Review Panel and stakeholders via a group discussion. Input will guide preparation of the final version.	3:15
10.	Information: Timeline for 2017 A timeline for meetings and deliverables will be presented. Desired outcomes: The group is informed and provides input on plans for the rest of the year.	4:00
11.	Wrap-up and Adjourn	4:15
