Item	Topic	Lead	Time (Min)
5.	<p>Discussion: Planning for 2022 and Beyond</p> <p>Multiple priority monitoring needs are under consideration for 2022, including:</p> <ol style="list-style-type: none"> 1. completing the current coast survey, 2. monitoring in support of the Realignment, and 3. sampling rivers and streams as called for in the most recent long-term plan for the BOG and to support development of the Central Valley Rivers TMDL. <p>This is probably more than the budget and capacity at MLML can accommodate, especially considering that EPA's National Lakes Assessment may also add fish this round. Priorities for work in 2022 need to be discussed, and may entail consideration of longer-term plans.</p> <p>Desired Outcome: Obtain input from the Workgroup.</p>	Jay Davis	10:30 AM (30 min)
BREAK			11:00 AM (10 min)
6.	<p>Discussion: Rebranding the BOG</p> <p>Currently the Bioaccumulation Oversight Group (BOG) is commonly referred to as "the BOG" as well as "the Safe to Eat Workgroup". This can make connecting with individuals or entities that do not actively participate in the Workgroup difficult. We recommend we rebrand ourselves so that henceforth we are only referred to as the Safe to Eat Workgroup, and revise the SWAMP and Council web pages and portals accordingly.</p> <p>Desired Outcome: Obtain input from the Workgroup.</p>	Anna Holder, Jay Davis	11:10 AM (10 min)
7.	<p>Discussion: Review of Outreach Materials</p> <p>In past meetings, we have discussed developing a series of outreach materials for the Bioaccumulation Monitoring Program and this Workgroup. During this item we will review and discuss the following draft materials, and discuss other materials (if any) that we would like to develop in the future:</p> <ul style="list-style-type: none"> • Angler Brochure/Booklet Mockup (for field crews) • Volunteer Angler Survey (PDF of Questions) • Program and Workgroup Factsheet <p>Desired Outcome: Obtain input from the Workgroup.</p>	Anna Holder	11:20 AM (20 min)
