

The Quality Assurance/Quality Control Website at the State Water Resources Control Board

Renee Spears

QA Officer

State Water Resources Control Board

December 19, 2014

QA/QC Website

- Website debuted in January 2014.
- It will evolve to include more information such as guidance documents.
- Repository of developed QA/QC documents.

QA/QC Website

- The Quality System was introduced by US EPA in guidance documents in 1999.
- Quality assurance and quality control are components of a quality system.
- The Waterboards use this Quality System approach developed by US EPA.

QA/QC Website

- QA/QC is one of the tools that SWAMP provides to other programs, agencies, and organizations to help ensure consistent document data quality.
- Monitoring Council's Healthy Streams Partnership
- Bioaccumulation Oversight Group-Safe to Eat Fish

Quality Assurance/Quality Control

Welcome to the Quality Assurance/Quality Control Website

Quality assurance and quality control are components of a quality system. A quality system is a structured system that describes the policies and procedures for ensuring that work processes, products, or services satisfy the user's specifications and expectations. A quality system is the means by which an organization manages its quality aspects. These aspects are Project Management, Data Generation and Acquisition, and Assessment and Oversight.

The State Water Resources Control Board has prepared documents that are used in our Quality System. They consist of the Quality Management Plan (QMP) which is the overall Quality Assurance (QA) plan for the entire State Water Resources Control Board; Quality Assurance Program Plans (QAPrP), e.g. SWAMP's QA Program Plan; and numerous Quality Assurance Project Plans (QAPP).

How can we help you?

October 1, 2010

Specifications for non-EPA Organizations

Quality specifications for non-EPA organizations are defined in the Code of Federal Regulations. The Quality Staff issues documents to provide information on satisfying the Federal Regulations for organizations receiving financial assistance from EPA through extramural agreements (e.g., contracts, grants, cooperative agreements, and interagency agreements). These documents may be used by EPA organizations as well.

Specifications for Non-EPA Organizations Invoked Through Individual Agreements or the Code of Federal Regulations

Title	Publication Number and Date	Description
EPA Requirements for Quality Management Plans (QA/R-2)	EPA/240/B-01/002 March 2001 (PDF 30pp, 86K About PDF) Reissue Notice May 2006 (PDF) 2pp, 91K About PDF	Specifications for Quality Management Plans for organizations that receive funding from EPA. These specifications are equivalent to Chapter 3 of EPA Manual CIO 2105-P-01-0. For more information and resources, see Tools - Quality Management Plans .
EPA Requirements for QA Project Plans (QA/R-5)	EPA/240/B-01/003 March 2001 (PDF 40pp, 120K About PDF) Reissue Notice May 2006 (PDF) 2pp, 91K About PDF	Specifications for QA Project Plans prepared for activities conducted by or funded by EPA. These specifications are equivalent to Chapter 5 of EPA Manual CIO 2105-P-01-0. For more information and resources, see Tools - QA Project Plans .

General Guidance

The Quality Staff issues documents to assist in the development and implementation of a suitable Quality System for both EPA and non-EPA organizations. These documents provide guidance to program managers and technical staff. They do not impose legally binding requirements and may not apply to a particular situation based on the circumstances. EPA retains the discretion to adopt approaches on a case-by-case basis that differ from these guidance where appropriate. EPA may periodically revise these guidance without public notice.

General Guidance

Title	Publication Number and Date	Description
Overview of the EPA Quality System for Environmental Data and Technology	EPA/240/R-02/003 November 2002 (PDF 35pp, 160K About PDF)	Information on existing Agency policies, responsibilities, and resources to use in implementing both the EPA Quality System and your organization's Quality System. For more information and resources, see Policies and Procedures for EPA Organizations and Quality Specifications for Non-EPA Organizations .
Guidance for Developing Quality Systems for Environmental Programs (QA/G-1)	EPA/240/R-02/008 November 2002 (PDF 114pp, 569K About PDF) Reissue Notice January 2008 (PDF 2pp, 91K About PDF)	Guidance on developing and documenting the elements of a functional quality system in organizations that carry out environmental data operations within, or on behalf of, EPA. For more information and resources, see Tools - Quality Management Plans .
Guidance on Assessing Quality Systems (QA/G-3)	EPA/240/R-03/002 March 2003 (PDF 83pp, 556K About PDF)	Guidance on assessing the adequacy and effectiveness of an environmental quality system. For more information and resources, see Tools - Quality Systems Assessments .

Comments About the Website

- The site is a “Work in Progress.”
- Please take a few minutes to review the website and provide me your comments.
- Should other information be included to assist people interested in QA/QC?
