

Delta Science Data Summit

Data Management Interest Tracks

Tony Hale, tonyh@sfei.org

Business Models

- Collaboration
- Sustainability
- Open Source Software
- Open Data Initiatives
- Facilitating Data Sharing as a Business Practice

Data Inventory

- Priority Datasets
- Legacy Datasets
- Data Gaps (What are the biggest unknowns that can/must be addressed?)

Data Integration

- QA/QC and Data Processing
- Data Standards
- Data Interoperability
- Web Services
- Extract, Transform and Load (ETL)

Data Mining and Presentation Tools

- Visualization
- Mapping and Geospatial Analysis
- Analytical Data Mashups and Dashboards
- Reporting Innovations
- Mobile Computing (This item could go anywhere, but people would notice if it were absent altogether)
