## NOTICE OF PUBLIC MEETING

**Thursday September 26, 2024**  
**10:00 AM to 1:00 PM**  
Zoom Meeting

**NOTICE IS HEREBY GIVEN** that the California Water Quality Monitoring Council will meet to discuss issues relating to its responsibilities pursuant to California Water Code Section 13181.

### BACKGROUND

The California Water Quality Monitoring Council (Monitoring Council) was established by [California Water Code Section 13181 \(CWC 13181\)](#) which requires the boards, departments and offices within the California Environmental Protection Agency (CalEPA) and the California Natural Resources Agency (CNRA) to integrate and coordinate their water quality and related ecosystem monitoring, assessment, and reporting.

[Monitoring Council Members](#) include representatives from Cal/EPA, the Natural Resources Agency, drinking water, public health, stormwater, publicly owned treatment works, agriculture, citizen monitoring groups, the public, the scientific community, the academic community, and water supply. The Monitoring Council is also required to consult with the U.S. Environmental Protection Agency, whose representative attends Monitoring Council meetings in a non-voting capacity.

The Monitoring Council develops specific recommendations to improve the coordination and cost-effectiveness of water quality and ecosystem monitoring and assessment; enhances the integration of monitoring data across departments and agencies; and increases public accessibility to monitoring data and assessment information.

### MEETING PURPOSE AND DESCRIPTION

The purpose of this meeting is for the Monitoring Council to plan further implementation of their comprehensive monitoring program strategy and to develop additional recommendations to the CalEPA and CNRA Secretaries. Meeting topics will include:

- Public Forum: opportunity for stakeholders to address items not on the agenda.
- Monitoring Council Member updates.
- State of the Science: eDNA Monitoring and where California is poised to lead on a national scale.
